

【 GS Wave How to setup 】

iPhone Ver.

Go to the Apple Store, Search GSwave and will install it as free.

Then I will show you the VoiP+ phone settings.

We will also guide you on how to use comfortably.

1. Installation of GS Wave

1-1. Tap on **App Store**.

1-2. Please tap the **search** button, which is on the bottom right.

1-3. The search screen will be displayed.

1-4. Search input keywords "gs wave"
Please enter a blank space at this time.

1-5. Like the screen "**Grandstream Wave**", Since it will be displayed as Social Networking. You will install this software on the iPhone. Please tap the "**GET**" button.

1-6. The GET button will be changed to display that turns round.

When the "**Open**" button is displayed, installation is completed.

2. Configuration of GS Wave

2-1. Next, tap the button "**OPEN**" to start up GS Wave. You will setup the VoiP+. Always keep GS Wave running, to wait for incoming calls.

2-2. "GS Wave" Would Like to Access Your Contacts.
As it is displayed, tap "**OK**" to allow access to the contact.

2-3. Next, GS Wave sends notifications. Is it OK?
As it is displayed, let's tap "**Allow**".

2-4. GS Wave is now launched. You will set up VoiP+ now.
Please tap the "**Settings**" of the Gear mark at the bottom of the far right end.

2-5. Please tap the "Account Settings" of this top row.

2-6. Details of account settings are displayed.
But You have not set anything, so the lower one is blank.
So tap the "+"plus (mark of addition) in the upper right.

2-7. The Add New Account details screen is displayed.
Please tap the "SIP Account" in the fourth line include title.

2-8. Here is the confirmation. On the menu, Add New Account Details screen is displayed.
Now, this is the setting part. Please check the image and display screen.

2-9. Please press the home button to see your received VoiP+ registration mail.
If you registered on the PC, we recommend transferring PC mail to iPhone mail for copy and paste.
Please open an email of **[VoiP+ Completed Registration] Service Information**.

2-10. Email contents is "Welcome to VoiP+.
Your registration has been completed. We would like to inform you of the following."
On the right side of the "**SIP Account**" listed in line 9 of the mail.
Please copy and paste the **7-digit number**.
Be careful when extra spaces are selected before and after copy and paste.

2-11. Let's paste except SIP server and password.

(1) For the "**Account Name**", paste the **7-digit number** of the SIP Account.

(2) Also paste the **7-digit number** of the SIP account in "**SIP User ID**".

(3) Also paste the **7-digit number** of the SIP account in "**SIP Authentication ID**".

You can leave the voicemail User ID and Display Name blank.

Account Name ##### (1)

SIP Server IPv4:port/[IPv6]:...

SIP User ID ##### (2)

SIP Authentication ID ##### (3)

Password

Voicemail UserID

Display Name

Contacts Conf Keypad Messages Settings

2-12. Next You will set the SIP password.

Please copy "**SIP password**" described in email in line 10. There is no space in the password.
