

【 Wave Lite How to setup 】

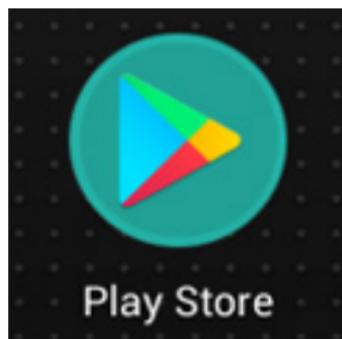

android Ver.

Go to the Google Play Store, Search "**Wave Lite**" and will install it as free.

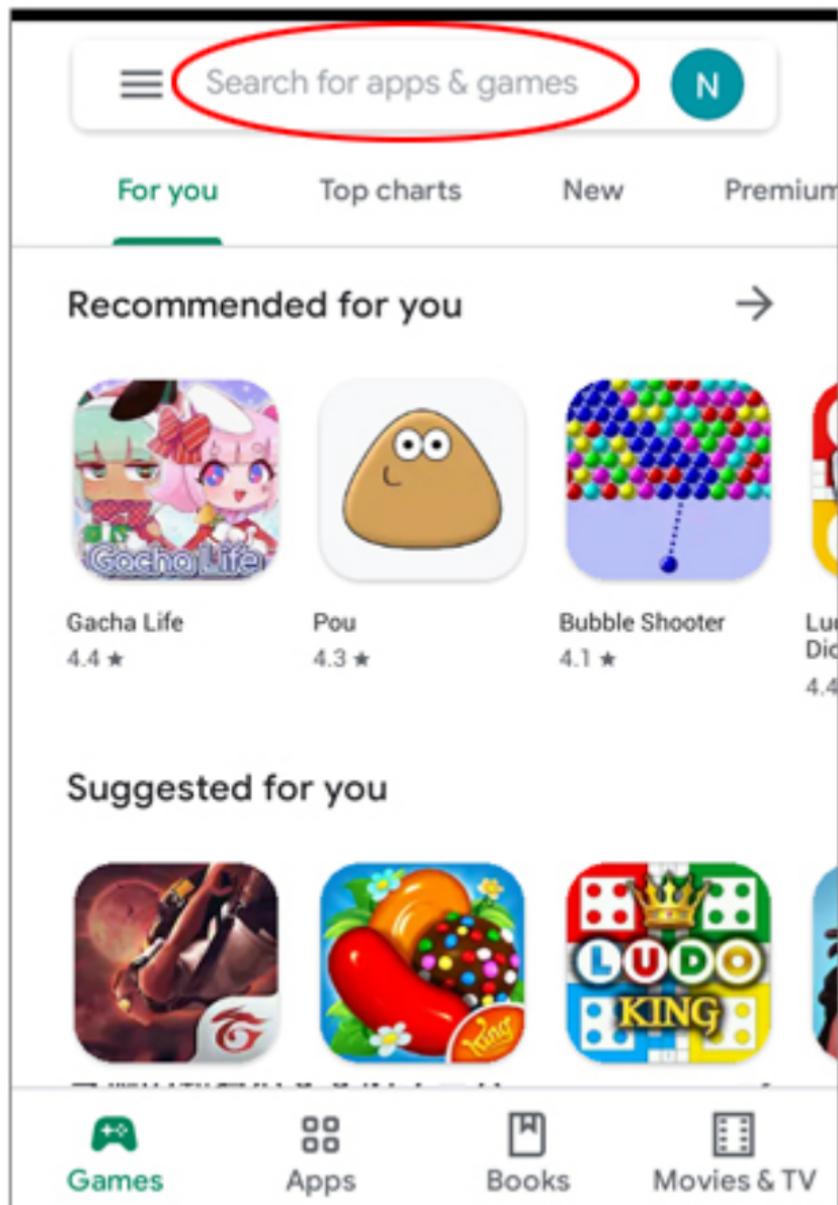

Then I will show you the VoiP+ phone settings.

1. Installation of Wave Lite

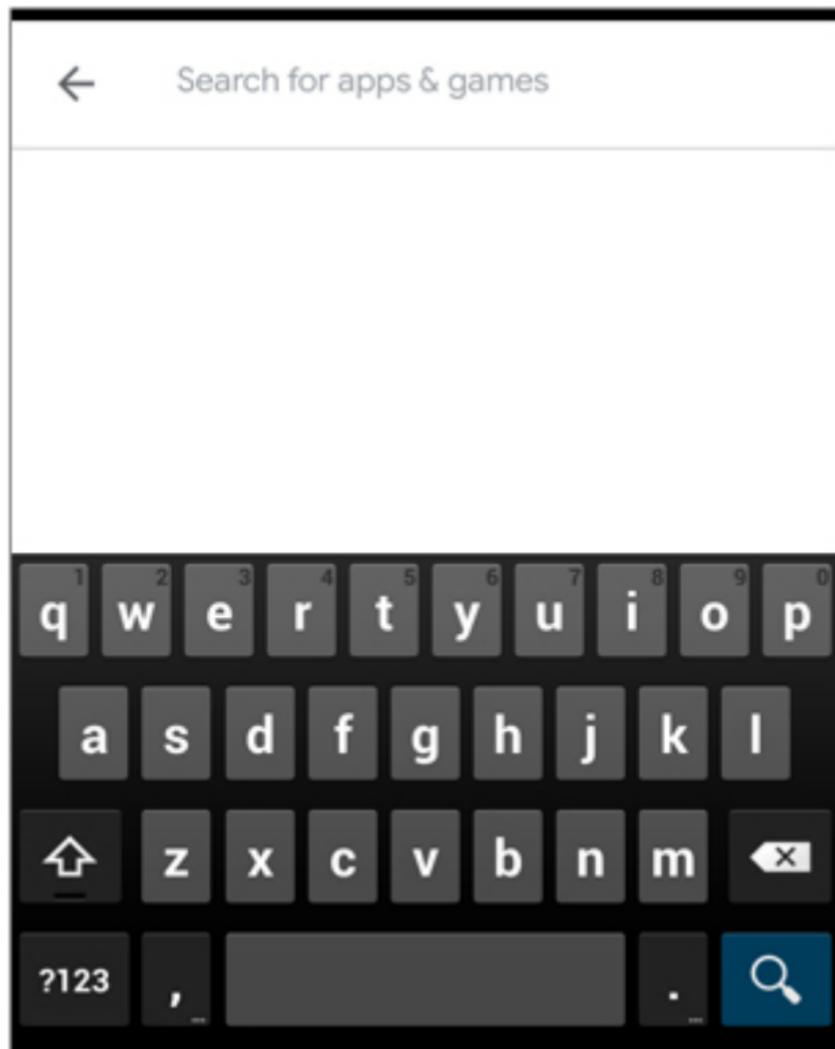

1-1. Tap on **Play Store**.

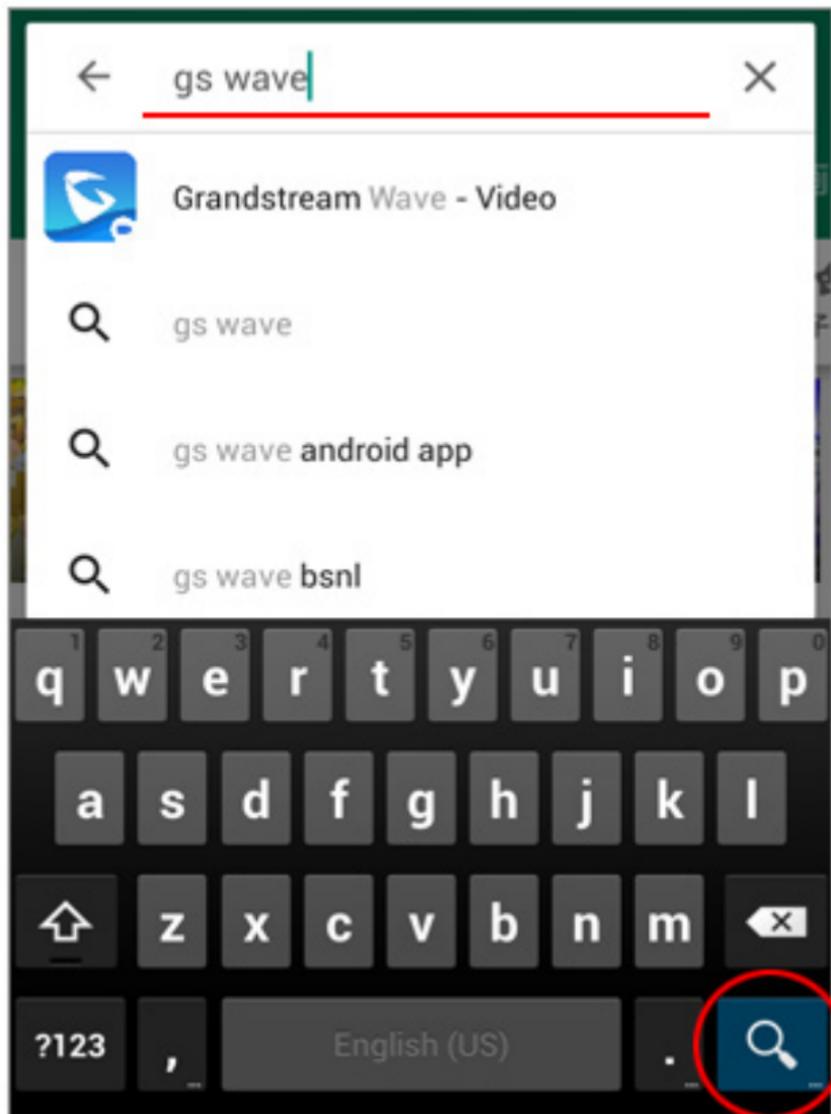

1-2. Please Tap "**Search apps and games**" at the top.

1-3. The search screen will be displayed.

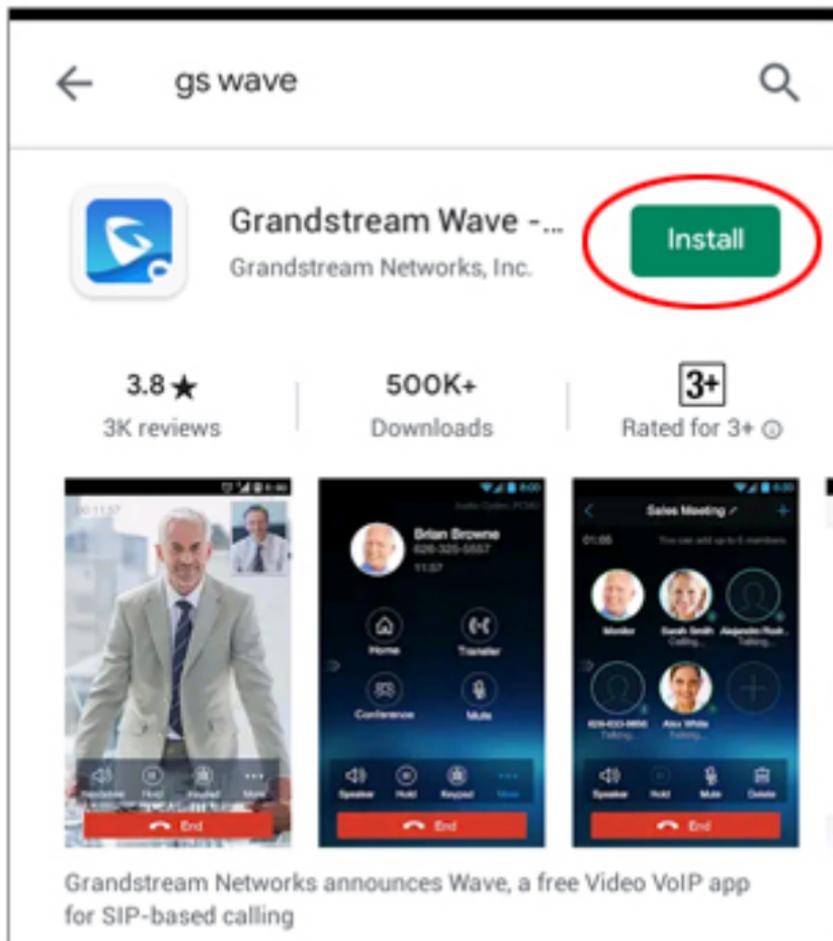

1-4. Search input keywords "**wave lite**"
Please enter a blank space at this time.
After inputting, tap the magnifying glass icon at
the bottom right of the screen.

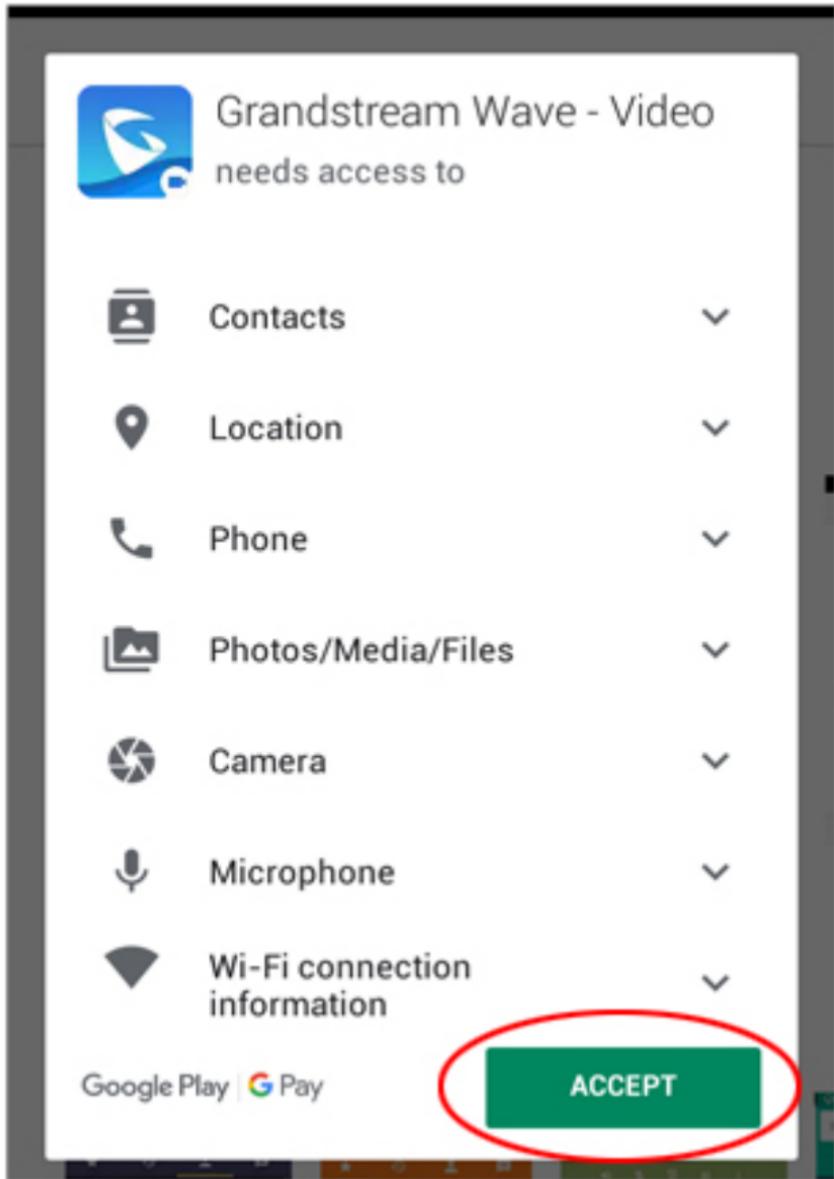

1-5. Like the screen “**Grandstream Wave - Video**”, Since it will be displayed as social networking.

You will install this software in the android. Please tap the install button.

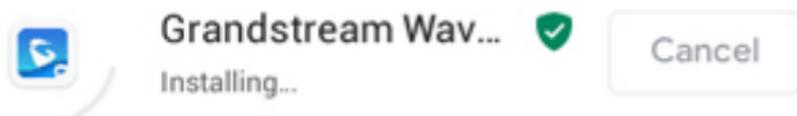

The screenshot shows the Google Play Store interface for the "Grandstream Wave" app. At the top, there is a search bar with "gs wave" entered and a magnifying glass icon. Below the search bar, the app's icon is displayed on the left, followed by the app name "Grandstream Wave - ..." and the developer "Grandstream Networks, Inc.". To the right of the app name is a green "Install" button, which is circled in red. Below the app name, there are three statistics: "3.8 ★" with "3K reviews", "500K+ Downloads", and "3+" with "Rated for 3+". At the bottom, there are three preview images showing the app's interface: a video call in progress, a call control screen for "Brian Browne", and a "Sales Meeting" screen with multiple participants. Below the preview images, there is a text description: "Grandstream Networks announces Wave, a free Video VoIP app for SIP-based calling".

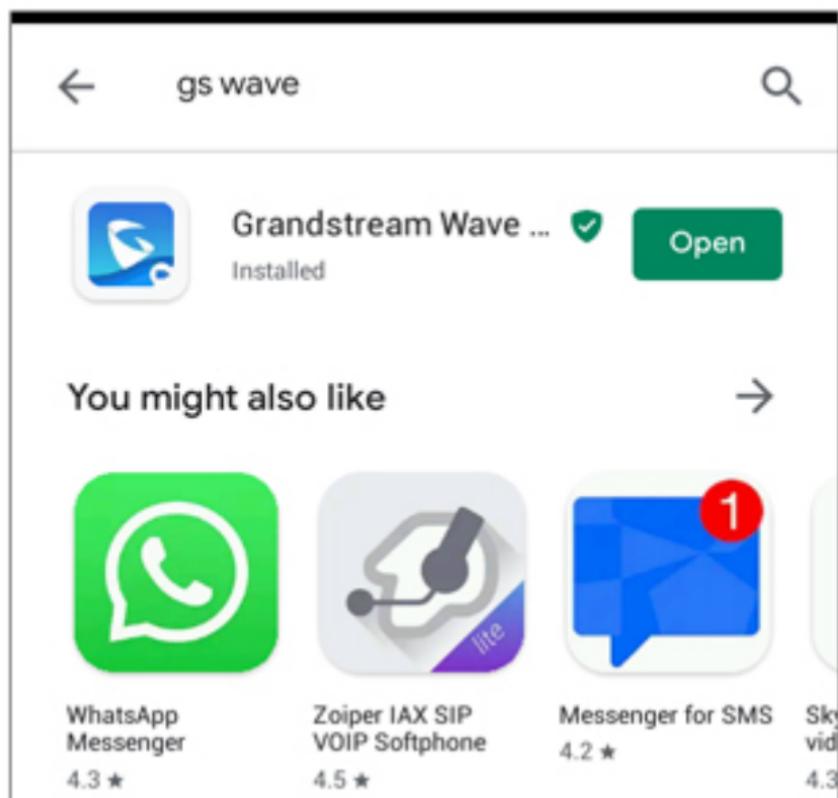

1-6. "Grandstream Wave - Video, Need access to" will be displayed, so tap "**ACCEPT**".

1-7. It will start downloading and the message Installing will appear.

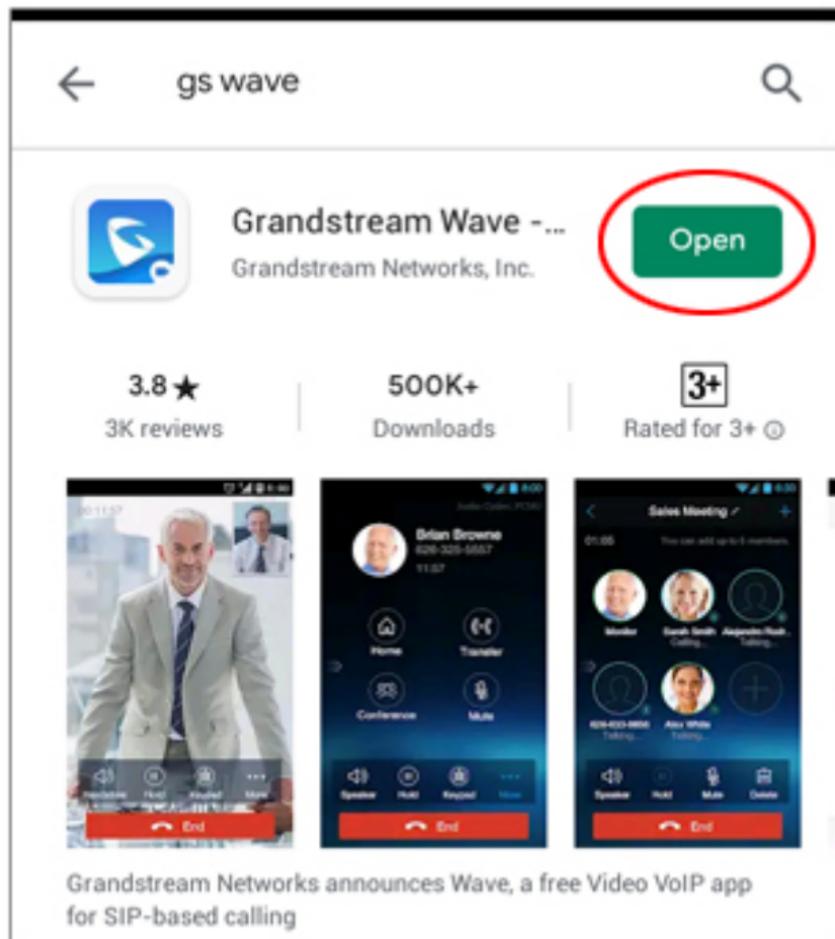

When the "Open" button is displayed, installation is completed.

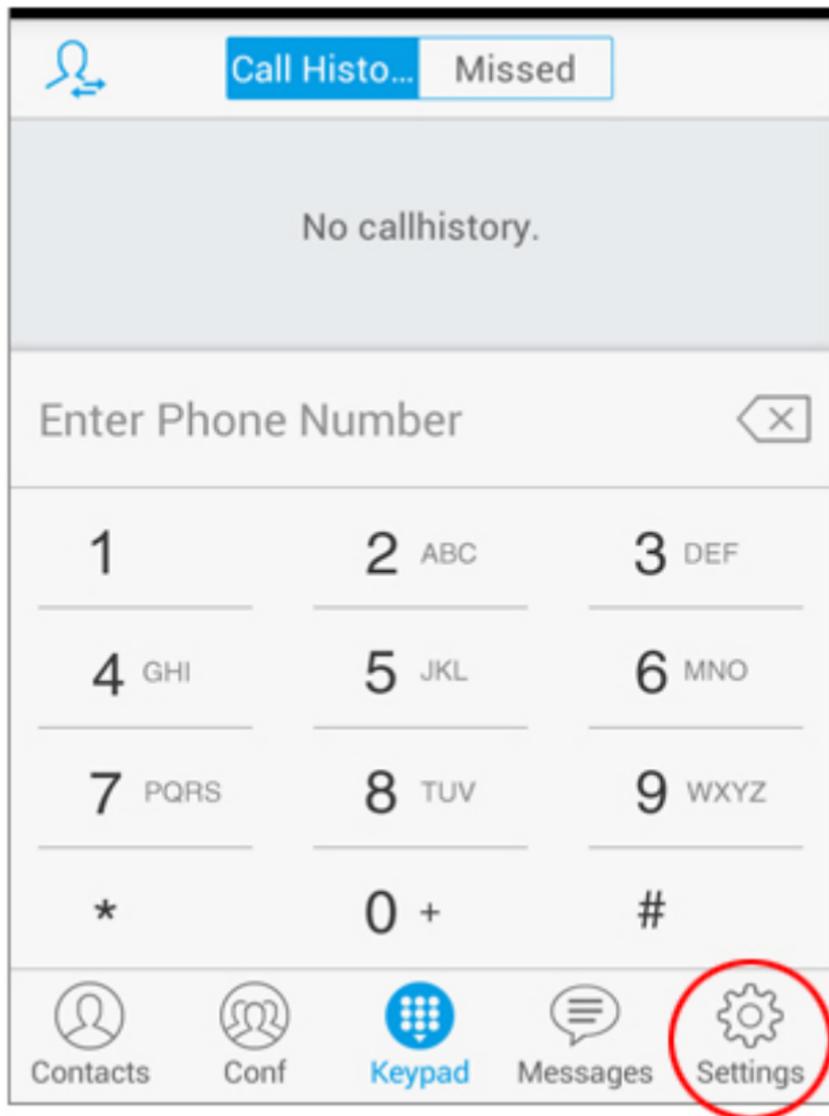

2. Configuration of Wave Lite

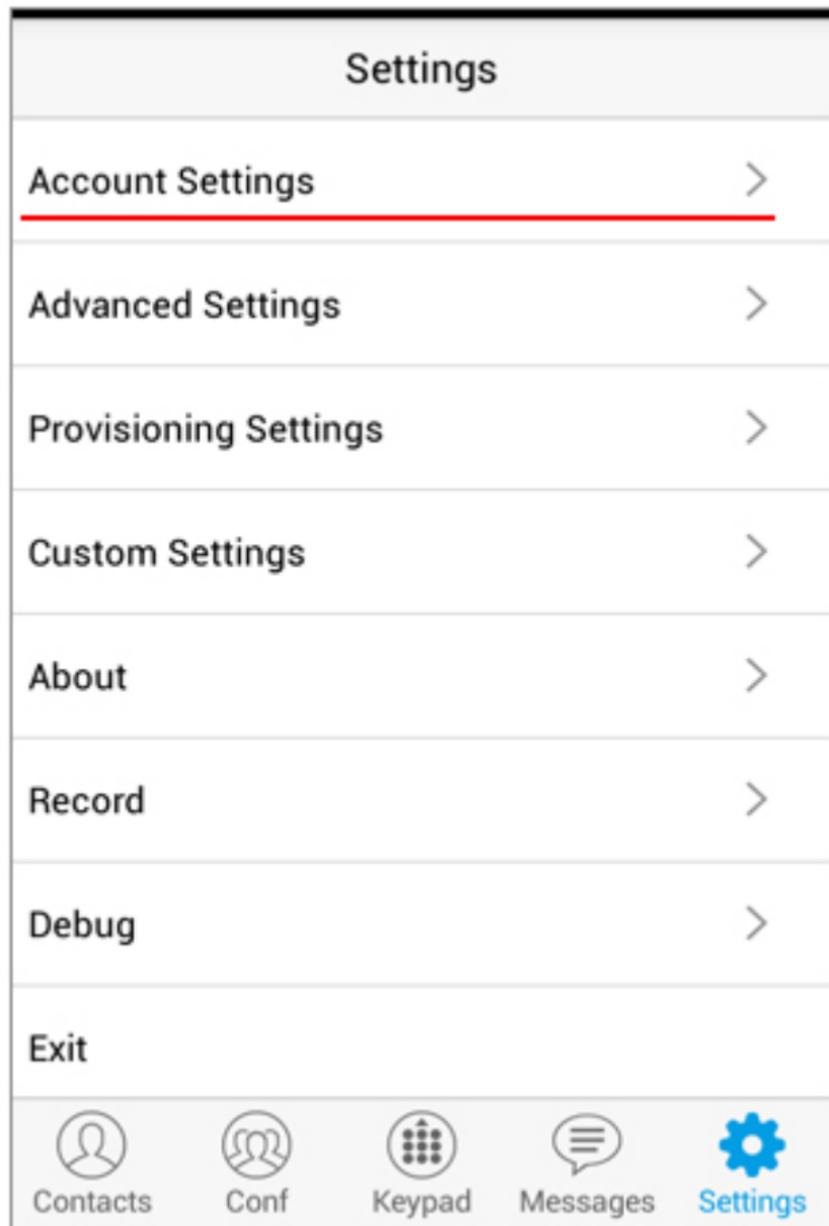

2-1. Next, tap the button "**Open**" to start up GS Wave. You will setup the VoiP+. Let's start by tapping GS Wave. Always keep GS wave running, to wait for incoming calls.

2-2. GS Wave is now launched. You will set up VoiP+ now. Please tap the "**Settings**" of the Gear mark at the bottom of the far right end.

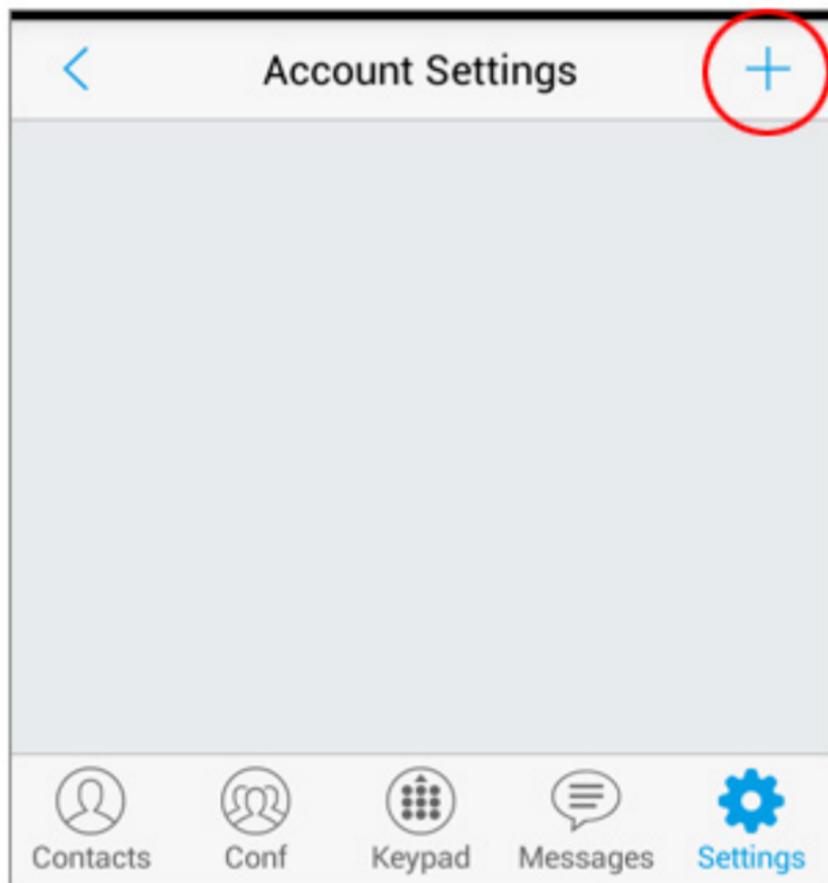

2-3. Next, tap the “**Account Settings**” of this top row.

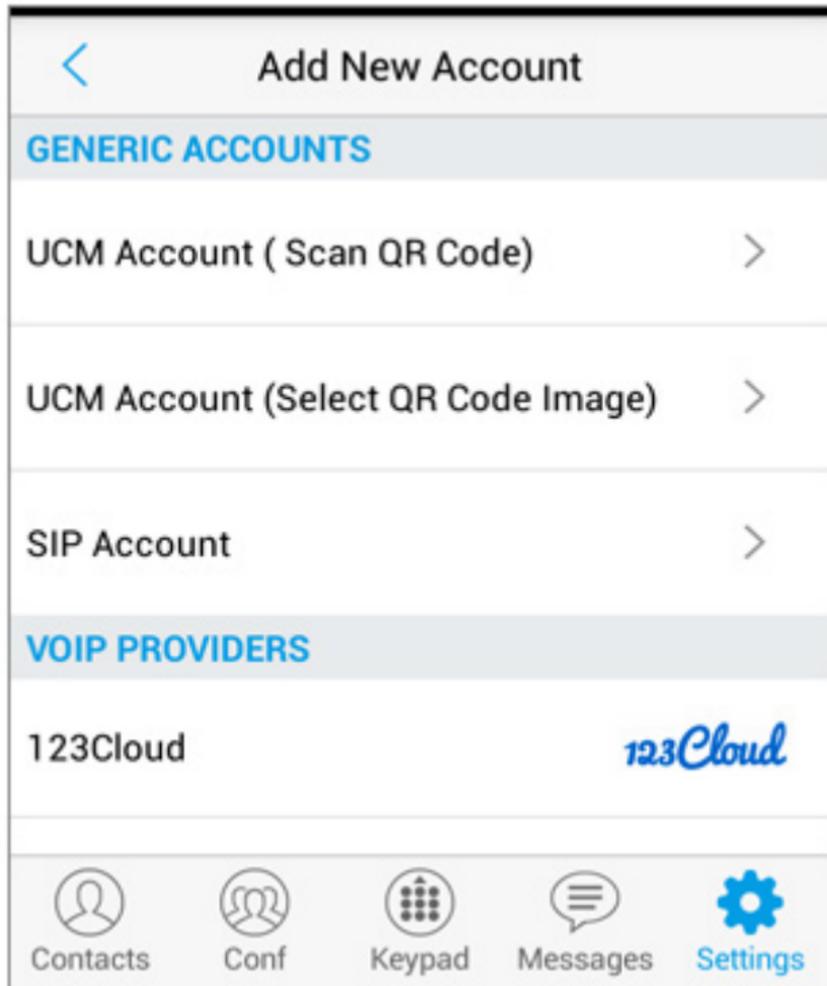

2-4. Details of account settings are displayed. But You don't have setting and the lower is blank.

So, tap the “+” (mark of addition) on the upper right.

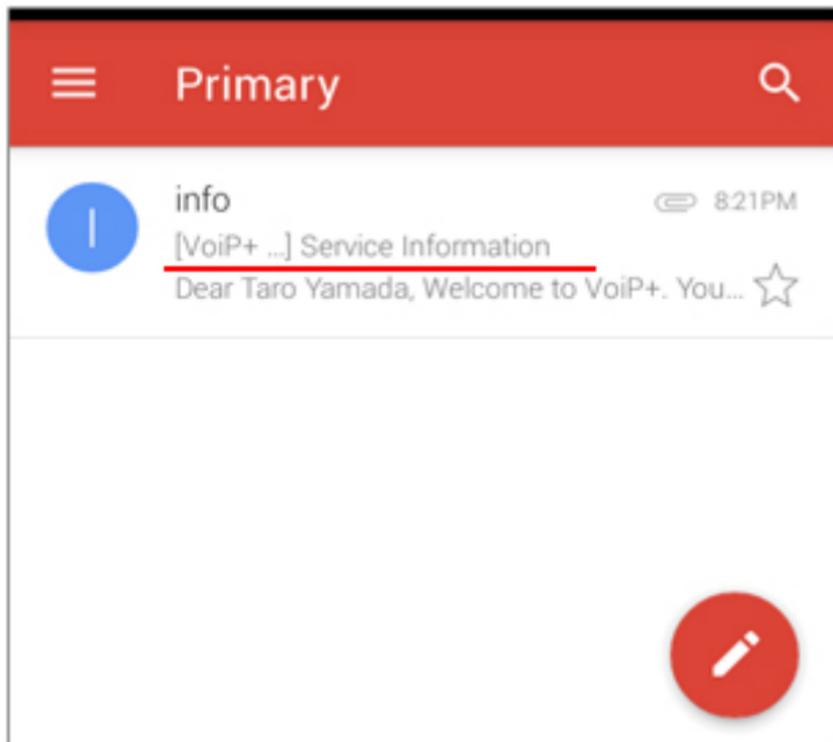

2-5. The Add New Account details screen is displayed.

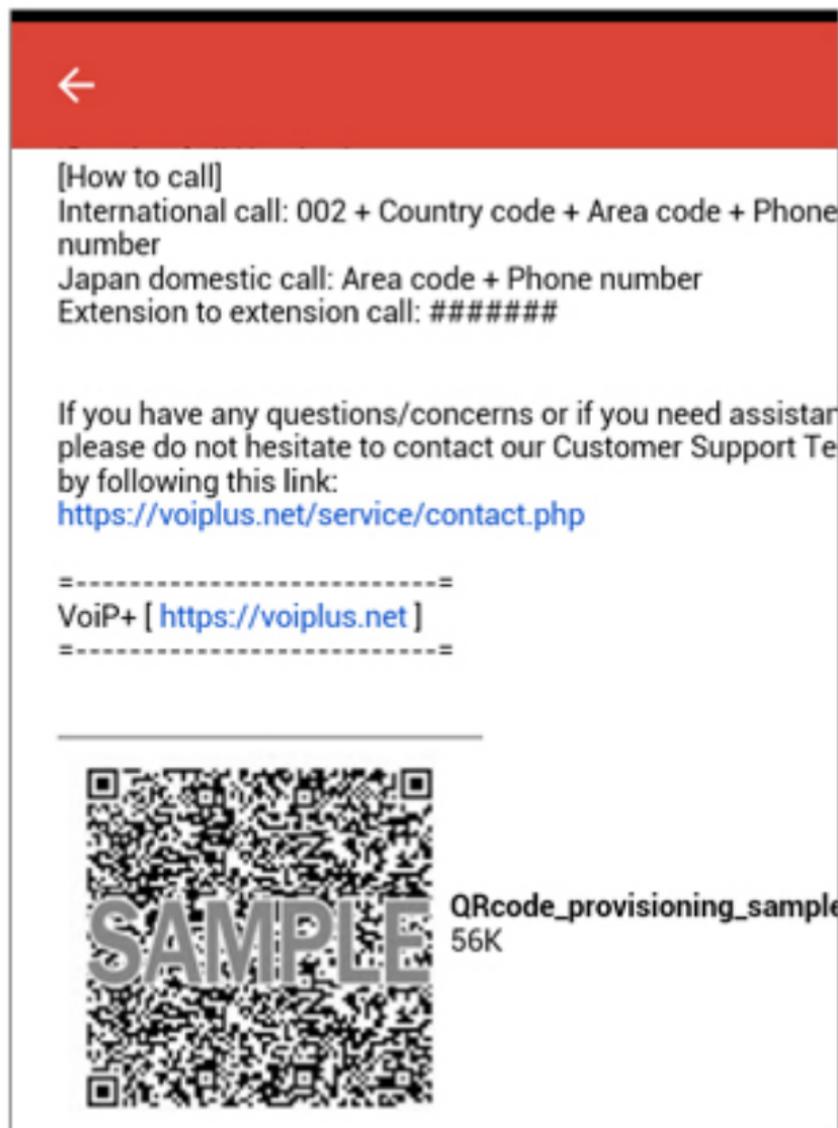

2-6. The QR code attached to the VoiP+ registration email will be read.

Please open the service information email of VoiP+ registration completed.

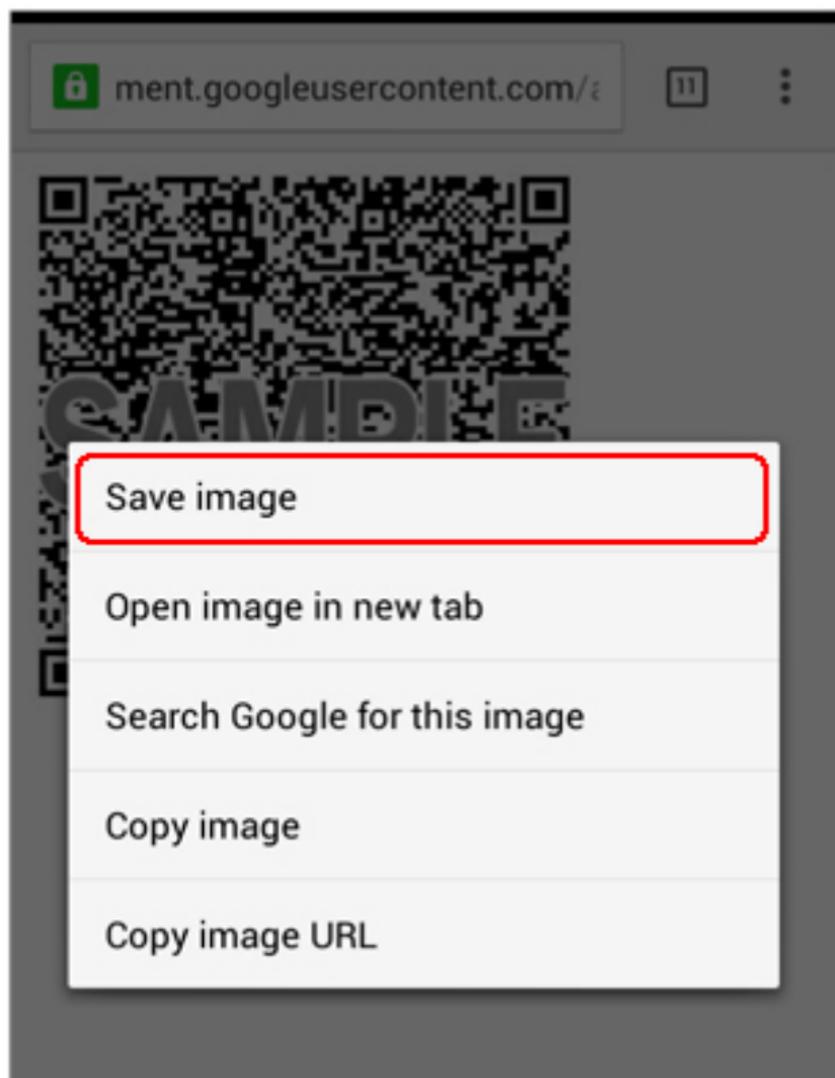

*If you registered on the PC, please forward the email to android email.

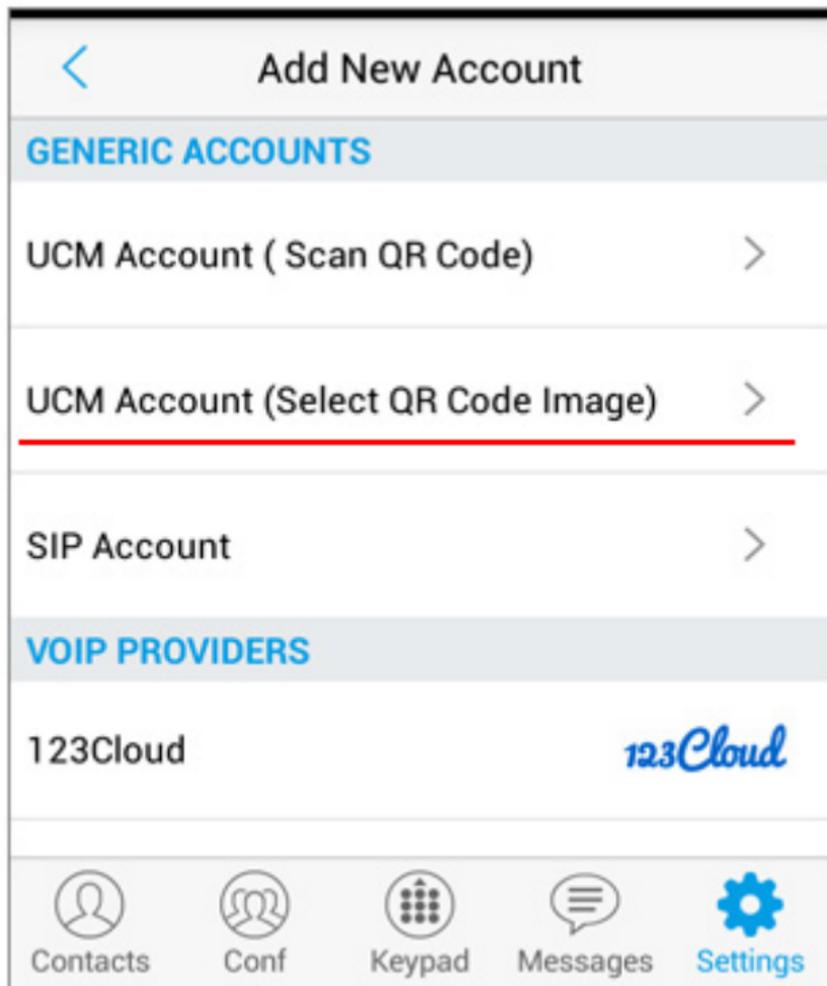

2-7. Display the QR code attached to the email and save it to android.

Touch and hold the QR code and tap **“Save image”** to the photo folder.

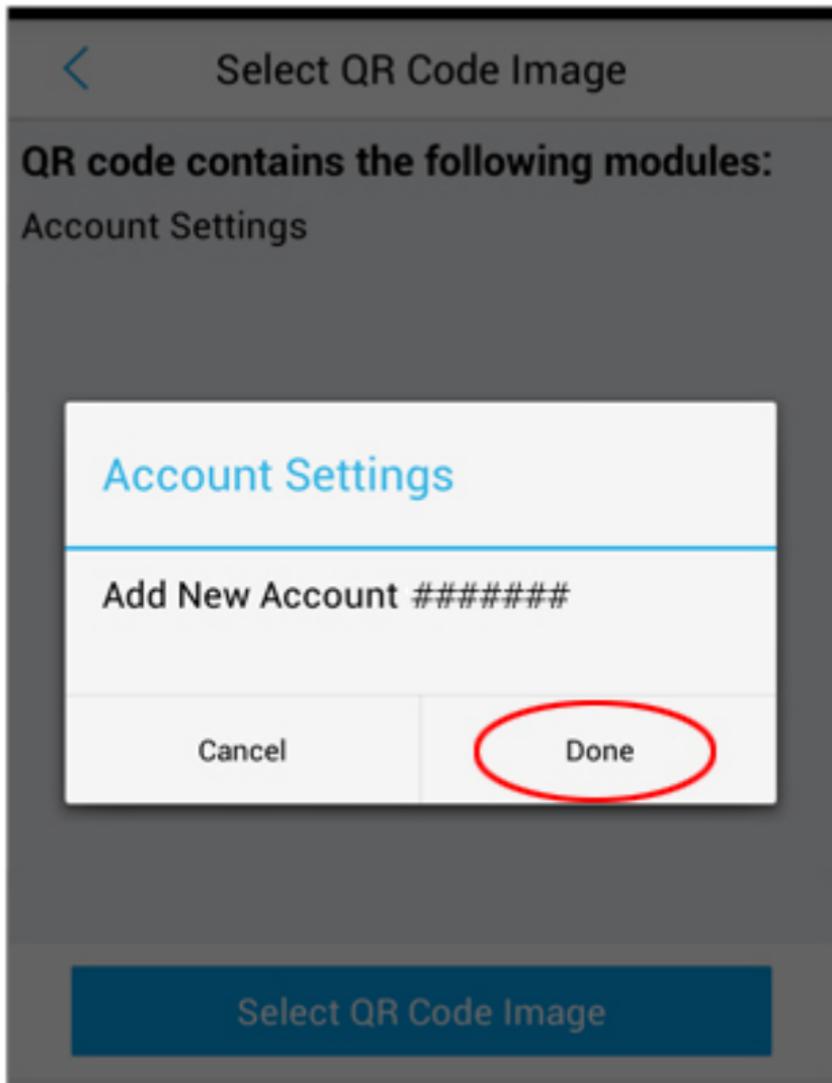

2-8. Return to the Wave Lite screen and tap the second **UCM Account** that is "**Select QR Code Image**".

2-9. Select the saved QR code image.

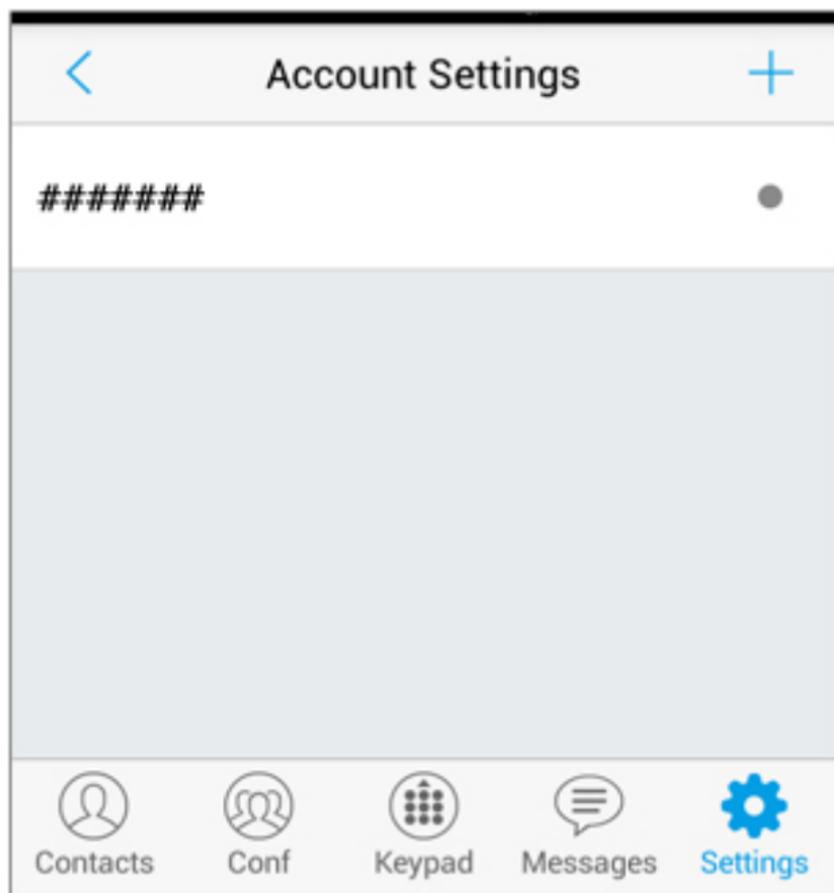

2-10. If the QR code is correctly read, it will be displayed as Add New Account, so tap "**Done**".

2-11. If registered successfully, the account will be displayed.

This account is your extension number.

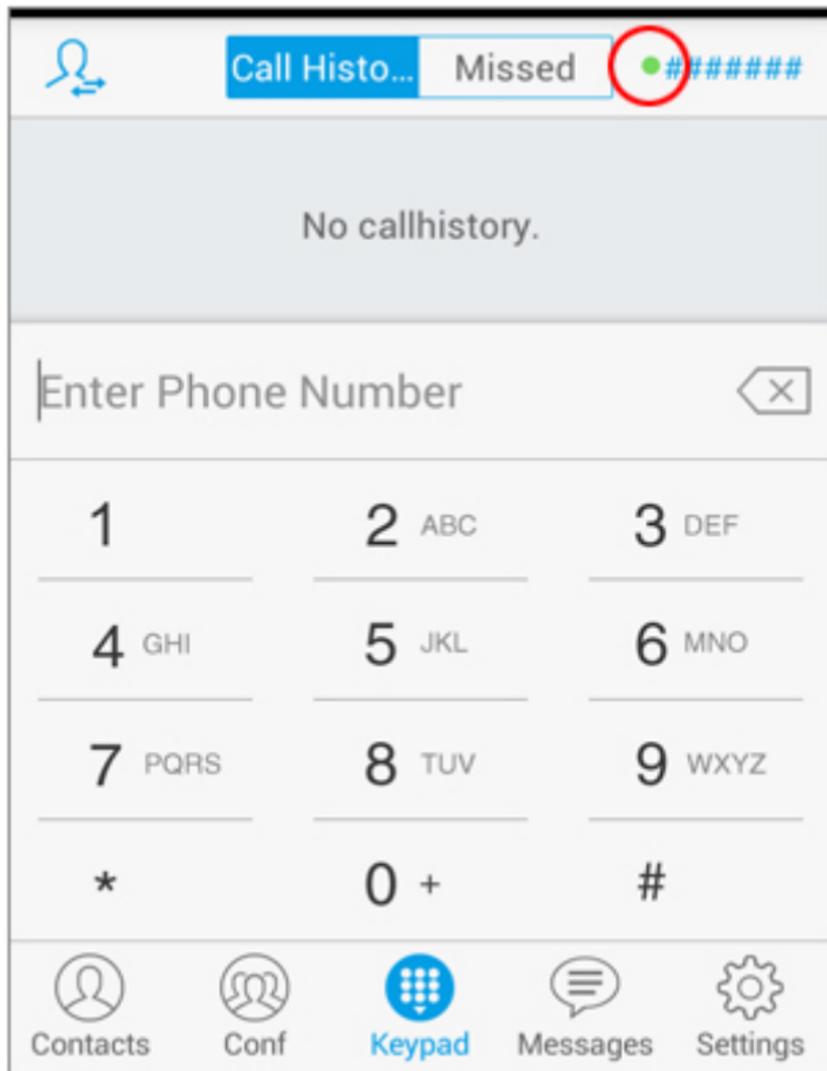

2-12. Tap "**Settings**" at the bottom right of the screen. Tap "**Advanced Settings**".

If you use 3G, 4G (LTE), 5G other than WiFi connection, Please turn **OFF** "**Only Use This WiFi to Register Account**".

2-13. Now, the basic configuration is over. As in the image, if green on the top right extension number is on, Your phone registration is successfully.

3. Information

For call to Japan, you can enter from the area code.

For international calls, dialed by **002, country code, area code excluding the first zero, local number.**

Depending on the version of the android, may be disconnected when you switch the network to WiFi and 4G

In this case, if you log in as a member on the website and turn on **Registry Alert**, you will be notified by email at disconnection.

If the deposit balance is zero it will be automatically stopped and no more money will be taken.

Please use it with confidence.

We will set up received phone number in other countries according to your count of requested. We are looking for your request.

Thank you for using VoiP+.
